Summary	Dynamic Full-Stack Developer with expertise in MERN Stack and SQL/NoSQL databases. Proficient in building scalable web applications, designing efficient systems, and solving complex problems using Data Structures and Algorithms . Skilled in version control with GitHub and experienced in Linux environments. Focused on delivering impactful, user-friendly solutions that meet real-world needs.	
Experience	<div><div>Rachana Webtech</div><div>Full-Stack Developer</div><div>Jan 2024 - Present</div><div>Ahmedabad, GJ</div><div><ul style="list-style-type: none">• Collaborated on FormBoost, a real-world project, by developing and optimizing both the frontend and backend.• Designed and implemented scalable REST APIs using Node.js, Express, and Sequelize ORM with MySQL for database management.• Worked closely with team members to ensure optimal performance and usability, improving system efficiency and user satisfaction.• Gained hands-on experience in full-stack development, version control (Git), and agile collaboration.</div></div>	
Projects	<div><div>Online Web Based Code Editor (IDE)</div><div>🔗 Live Link</div><div><ul style="list-style-type: none">• Developed a full-stack web app using the MERN stack, enabling users to write, save, and execute code directly in the browser.• Implemented Docker containers for secure and isolated server-side code execution, ensuring scalability and efficient resource management.• Integrated features like syntax highlighting, error detection, and output visualization enhance the user experience and support multiple programming languages.• Designed a user-friendly interface, simplifying coding tasks for students, developers, and educators while maintaining robust backend functionality.• Ensured seamless performance and scalability by optimizing database queries and implementing secure API endpoints.</div></div> <div><div>College Event Management System</div><div>🔗 Live Link</div><div><ul style="list-style-type: none">• Designed to help college administrators create and manage events while allowing students to browse, register for, and attend these events.• The system features user authentication, event management, registration tracking, and reporting.</div></div>	<div>Dec 2024</div> <div>Aug 2024</div>
